# Jenrose Projects Limited - quality windows and doors

*Jenrose Projects Ltd*

## Product List

### [Windows](#)

All our products are all designed and manufactured with quality, performance and security in mind. They are tested and approved to a number of exacting British Standards, are available in a wide variety of finishes and can accommodate many alternative types of fittings, glass and glazing bars.

### **H Turn Windows (Secured by Design)**

First introduced in the UK in 1979, this window system has since been improved through both design and experience and now offers a tried and proven high performance product. Recent improvements are both design and performance related and include an attractive internal mould on both sash and frame and an improved glazing system. [\[Product Details...\]](#)

### **The H System Fully Reversible Window**

The H Window is a high performance, top hung, fully reversible window available in both hardwood and softwood. This Norwegian style window is manufactured in Great Britain under licence from Spilka UK. [\[Product Details...\]](#)
